IAS 59th Annual Meeting Participation

IEEE IAS ISI SBC, represented by our Chair, had the privilege of participating in the IAS 59th
Annual Meeting, held in Phoenix, Arizona, USA, from October 20th to 24th, 2024. Representing
the Higher Institute of Computer Science, our SBC was actively involved in the event's activities
and technical sessions.

As part of the program, our SBC had the honor of presenting during the CMD Workshop,
highlighting our chapter's achievements, activities, and vision. This was an incredible
opportunity to showcase our work on a global stage, exchange ideas with industry leaders, and
connect with fellow IEEE IAS members.

Our participation was supported by the IAS Annual Meeting Travel Grant Program, enabling us
to engage in knowledge sharing, networking, and discussions about the future of industries and
technology.

This experience reinforced our commitment to contributing to the growth of the IAS community
and inspiring innovation in our local chapter.
