Let's Talk IAS:

Let's Talk IAS" was an engaging session where members discussed the latest developments and
opportunities within the IEEE Industry Applications Society (IAS). Participants shared insights,
experiences, and ideas, fostering dynamic discussions that highlighted the diversity and innovation in
electrical engineering.

Yassine Aniba is a Full-Stack Web & Mobile Developer at Next Consult, specializing in building scalable
and efficient digital solutions. He holds a Bachelor's degree in Computer Systems Engineering and is
currently pursuing an Engineering Diploma to further strengthen his expertise.

Beyond his professional work, he is an active IEEE volunteer, contributing to technical research and
community initiatives. Through this, he stays updated on the latest technologies via newsletters, national
and international conferences, and industry events. Passionate about innovation, continuous learning,
and making an impact in the tech world, he is always eager to explore new advancements.
